

TREASURY SYSTEM FOR CONVENTIONAL BANKING

Smarter Treasury for Modern Banking

Experience the future of treasury management with **OSTS® Plus**, the flagship solution from OBS.

Powered by **Straight Through Processing (STP)** technology, **OSTS® Plus** automates and streamlines your bank's treasury operations, delivering greater efficiency, accuracy, and control.

Robust & Compliant

Built on **robust, audit-tested** calculation methods, OSTS® Plus fully complies with both local and international banking regulations, giving you peace of mind and operational confidence.

Its flexible setup allows easy customization to match your bank's **Standard Operating Procedures (SOP)** and **Standard Operating Manuals (SOM)**—ensuring a seamless fit into your existing workflow.

Modern & Optimized Solutions

Featuring **integrated risk management framework** with real-time monitoring, advanced analytics, and automated controls to ensure regulatory compliance and operational excellence.

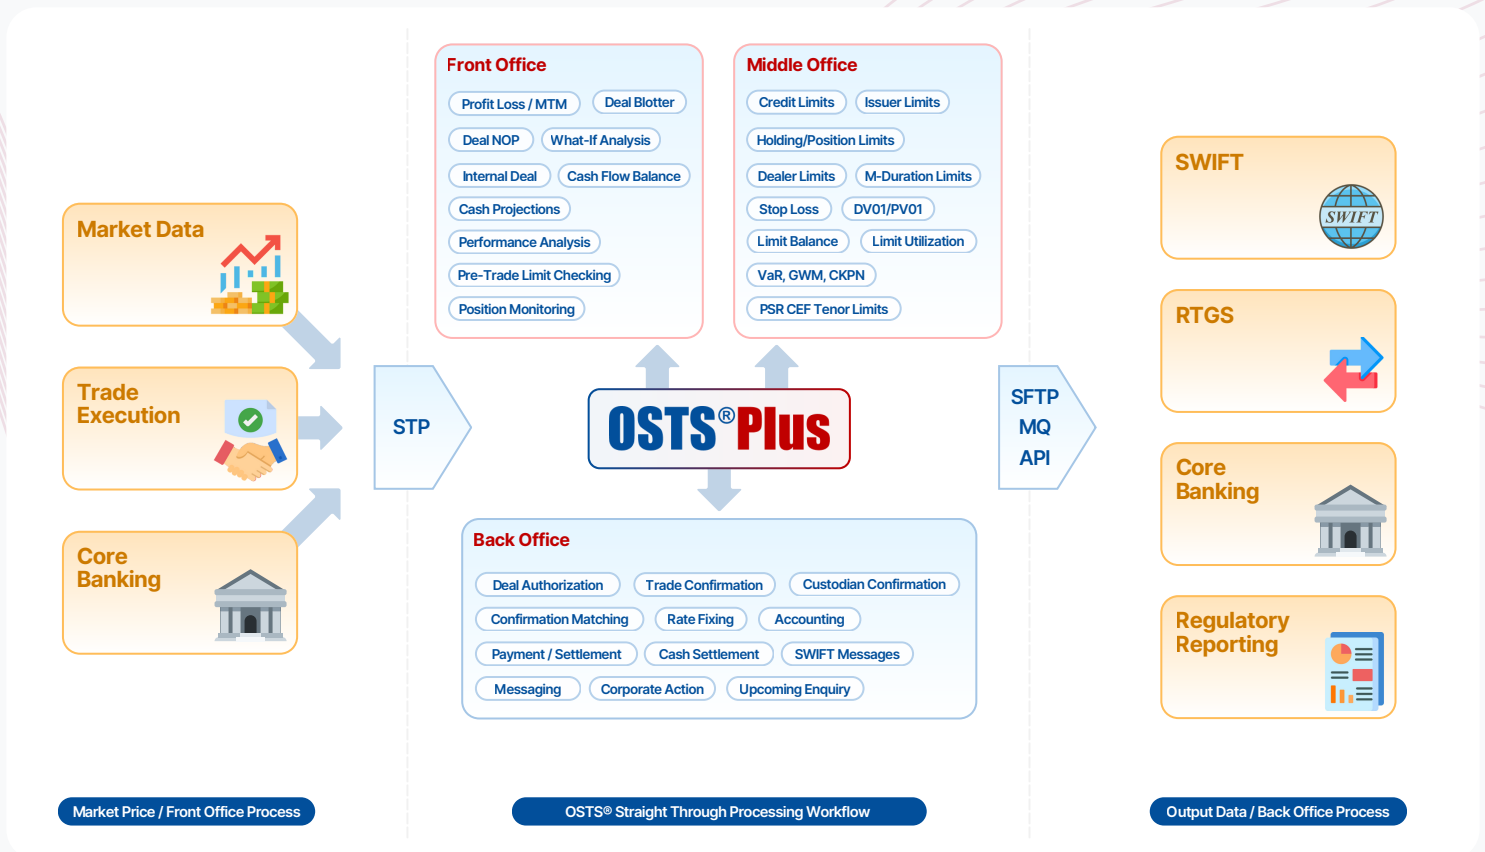

Designed for quick implementation and intuitive use, **OSTS® Plus** supports a wide range of treasury functions and is ideal for conventional banks aiming to modernize and optimize their operations.

Trusted Partner for Financial Institutions

With a strong footprint across Southeast Asia, **OSTS® Plus** is one of the region's most trusted treasury systems, offering a cost-effective perpetual license model and supported by a dedicated team of technical experts.
